AUTOMATION**

Products and Solutions

INTRODUCTION

Automated Process Limited supplies a comprehensive range of industrial measurement, control and automation products and services to all types of industries throughout Nigeria since 1999.

We specify, select, install, commission, train, maintain and calibrate instruments and associated systems for processing and manufacturing plants. We also design and construct panels for comprehensive process control automation.

Our repair services and maintenance programs reduce down time and cost of ownership with customer value, thereby optimizing and increasing your system safety and profitability.

FLUID POWER AND CONTROLS

Our diverse range of fluid power and controls solutions, addresses the individual needs of your industry applications and business.

These solutions provide you high reliability, efficiency and cost-saving benefits that our products guarantee.

- o Compressed Air System
- o Pneumatic Components and Systems
- o Vacuum Components and Systems
- o Compressed Air & Gas Instrumentation
- o Control Valves and Actuators
- o Process Plant Equipment and Components

INDUSTRY

We are a one stop shop for comprehensive range of industrial measurement, control and automation products and services to all types of industries throughout Nigeria.

- o Brewery & Malt Drink
 - o Distillery
 - o Soft/Fruit Drinks
 - o Water & Waste Water
 - o Dairy & Beverages
 - o Flourmills, Noodles & Pasta
 - o Sugar & Salt
 - o Power & Utilities
 - o Pharmaceuticals and Life Science
 - o Glass and Heat Treatment
 - o Metal, Wire & Cable
 - o Chemical and Petrochemical
 - o Palm & Vegetable Oils
 - o Plastic, Printing, Paper & Packaging
 - o Oil & Gas
 - o Marine
 - o Textiles
 - o Cement and Concrete
 - o Machine Tools
 - o Engineering Services
 - o Food & Agro base
- 

APPLICATIONS & SOLUTIONS

We provide measurement, control, automation, maintenance and calibration solutions for the following industrial processes, plants and machineries.

- o Homogenizers
- o Fuel and Chemical Tank Farm
- o Fluids Loading & Off-Loading System
- o Boiler and Steam System
- o Oven/Cookers
- o Heat Exchangers
- o Pasteurizers
- o Separators/Centrifuges
- o Water Wells and Boreholes
- o CIP Systems
- o Gas/Liquid Storage/Buffer Tanks
- o Process Filters
- o Utility Fluids Metering & Inventory Systems
- o Industrial Conveyor Systems
- o Electrical/Instrumentation Tools
- o Maintenance and Calibration Products
- o Labels, Markers & Printing Systems
- o Energy Monitoring & Management Systems
- o Test, Verification, Maintenance and Calibration services
- o Electrical Panel Building Components/ Accessories and Services
- o Motors, Pumps & Fans
- o Furnaces
- o Mixers & Blenders
- o Sterilizers & Dryers
- o Heating & Cooling Systems
- o Industrial Machine Safety Systems
- o Industrial Wireless & IoT Systems
- o Condition Monitoring Systems
- o Power/Signal Protection & Conditioning
- o Dosing, Filling & Batching Systems
- o Plastic Extruders
- o Compressed Air quality, energy and controls
- o Air/Gas Compressors
- o Printing & Packaging Machines
- o Grains/Powder Silos
- o Industrial Washing Machines
- o Diesel/Gas Engines
